OCA 87-5755

Mr. James Frey
Assistant Director for Legislative
Reference
Office of Management and Budget
Washington, D.C. 20503

Dear Mr. Frey:

Enclosed is a draft report on H.R. 2260, a bill that would direct that records concerning live sightings of American MIAs in Southeast Asia be made public. We request that you review the report to determine whether it is consistent with the Administration's program. A copy of the original request by Chairman Stokes of the House Permanent Select Committee on Intelligence is also enclosed.

I believe that the report can be cleared quickly since it simply reaffirms the position that the Department of Defense took on the bill in a letter addressed to Chairman Fascell of the House Foreign Affairs Committee in July 1987.

Sincerely,

Enclosures: a/s
